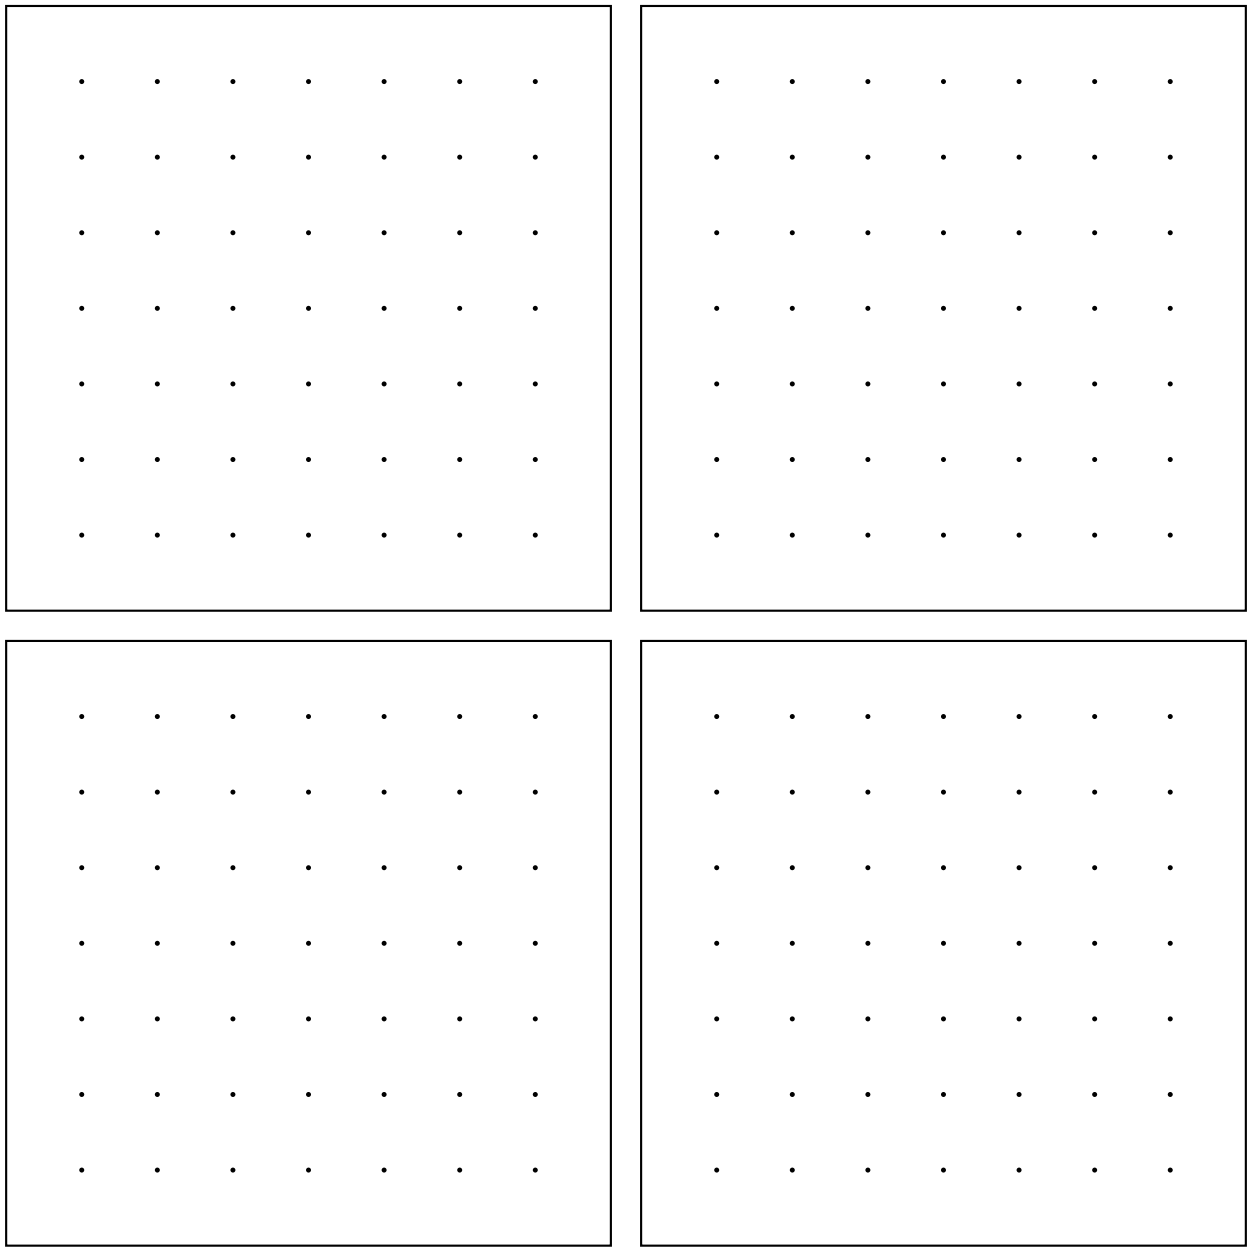
Observation sheet, part 2: right after Sheet number _____

Block C, Right after. Within five minutes of looking away. Leave the laser on so you can glance back and check.

Draw what you saw, one thing per box. Messy is fine. Do not improve it. Do not copy anything.



How well does the drawing match what you saw

1 2 3 4 5 6 7 8 9 10

What made drawing hard

_____

_____

_____

Describe it in your own words before anything else

_____

_____

_____

_____

Block C, continued.

Moving ◯ Yes ◯ No ◯ Both

Direction, circle any

◯ up ◯ down ◯ left ◯ right ◯ swirling ◯ flowing

Size

◯ smaller than a fingernail ◯ fingernail to thumb ◯ hand ◯ larger

Did it change size ◯ Yes ◯ No

Clarity ◯ 1 ◯ 2 ◯ 3 ◯ 4 ◯ 5

When you looked away and back, was it still there

◯ Yes, same ◯ Yes, different ◯ Had to find it again ◯ Gone

After the laser was switched off

◯ Nothing ◯ Something, describe _____

How long from the first breath to the first thing you saw

_____ seconds or minutes

☐ **I saw nothing structured**
This is a real result. Record it.

Then open this link on your phone and redraw it there. Two taps and it is sealed to your name. Add the voice note from the same screen.

Sitter card: for the second person in the room

Sheet number _____

Ask only open questions. Never name a shape. Never show them anything. Write what they say, word for word.

If there is no sitter, the phone voice recorder from page 1 does this job.

t+0 first breath

Ask: What do you see now?

Ask: Is it moving? Yes / No

Ask: Where on the surface? top / middle / bottom / everywhere

Ask: Still there? Yes / No

t+1

Ask: What do you see now?

Ask: Is it moving? Yes / No

Ask: Where on the surface? top / middle / bottom / everywhere

Ask: Still there? Yes / No

t+3

Ask: What do you see now?

Ask: Is it moving? Yes / No

Ask: Where on the surface? top / middle / bottom / everywhere

Ask: Still there? Yes / No

t+5

Ask: What do you see now?

Ask: Is it moving? Yes / No

Ask: Where on the surface? top / middle / bottom / everywhere

Ask: Still there? Yes / No

t+10

Ask: What do you see now?

Ask: Is it moving? Yes / No

Ask: Where on the surface? top / middle / bottom / everywhere

Ask: Still there? Yes / No

When the laser is switched off, ask: Is anything still there? Nothing / Something

Note the time the observer was able to pick up a pen t+ _____ min

Sitter name _____ **Observer sheet number** _____
